Cut Motion (9)

Cut motions Nos.(7)and(8)were withdrawn

Utilizing the village panchayat fund for construction of school buildings.

Mr.J. MAHOMED IMAM.-Sir, I beg to move that the demand for Rs. 23,29,000/- under "1, Land Revenue" be reduced by Re. 1 to urge the necessity of permitting the utilization of a portion of the panchayat fund for the construction of school buildings. Both - yesterday and today the day before, we have been pleading for increased grant not only for the spread of education but also for the construction of school buildings. It is an admitted fact that the local education authority at present is entirely helpless to undertake the construction of school buildings; and if I am not mistaken, I can tell you, Sir, that ever since primary education was handed over to the local education authority, the latter have not built any school building worth the name. At least in my taluk there is no addition so far as the school buildings are concerned and the reason is in many places where the local education authority had resolved upon giving a school, the idea is dropped for want of a proper school building. When the local education authority is unable to undertake this, it naturally devolves on the local people to give a building; and the best local authority is the village panchayat. I am aware that many village panchayats are perfectly willing to undertake the construction of school buildings but the Government authorities are in the way

The authorities say that the village panchayat fund ~~xxxxxxxx~~ could be utilised for any purposes other than school buildings; and the fund is being utilized in ways which are less valuable than this. So I wish to suggest that for such panchayats which can affo funds and which are willing to construct school buildings, permission may be given to do so. Now, as it is, we are not allowed to divert funds on the plea that it is not the primary duty of the village panchayat to undertake this work. That result is whateve little extension of education there could have been is hampered on account of this drawback. If this rule is relaxed and permission is given to panchayats which have surplus funds, education will expand. I may give you one example in my taluk of Sollaghatte panchayat which has got Rs.3½ thousand at their credit. They have passed a number of resolutions requesting the Government to permit them to utilise a portion of the fund for school buildings. It is a flourishing village; and there are more than 100 students. But I am told recently by the district educational ~~xxxxx~~ officer that there is every likelihood of the school being closed for want of a building. Under such circumstances, where there are adequate funds, the Government may permit that a portion of the fund may be diverted towards the construction of school buildings. This is not the first time that the matter has been brought before the Council; we are urging it for the past 5 or 6 years The provision of a school building is an essential improvement in the vi

Taking these facts into consideration, I submit that this relaxation may be made in the rules

Mr. D.H. CHANDRASEKHARAIYA.-Ir.

supporting the cut motion of my hon.Friend. I wish to say that of the several problems connected with the expansion and development of primary education, the construction of school buildings is an important one. But so far the Government seem to have had a plan for the construction of middle school buildings: but I have not heard that anything has been done for the construction of primary school buildings. One of the most important condition/of staring any school in the village is that the villagers should pay for the construction of a school building and then only the question of starting a primary school is considered by the local education authority. Under the present conditions of the village, it is impossible for the villagers to pay for the construction of a school building in addition to the payment of other cesses and taxes and so it would be a very desirable step for the village panchayats which might have sufficient funds to meet the needs of the locality by setting apart a small sum, say Rs.300 to Rs.500 for the construction of a school building. I know in a number of cases that even the school buildings which had been in existence have fallen to the ground on account of want of repairs. No sufficient money is provided by the local education authority--of course it is not possible also for them to do it. In such cases, it would be very difficult

to

to keep the schools even going, and they will have to be closed when the buildings are fallen to the ground. Since the imparting of primary education is the first and foremost duty on the part of the Government, it is up to the Government at least to permit the village panchayats, when there are sufficient funds available at their disposal, to spend some money for the repair of school buildings as also for the construction of new buildings. This will not certainly be detrimental to the performance of other duties xxxxxxxxx enjoined on village panchayats. It is only when there are surplus funds available that this would be done and so I request that this permission may be granted in special cases so that the educational prospects in the villages might be improved.

Mr. G. CHANNAPPA.-I beg to bring to the notice of the Government that in very exceptional cases, sanction is no doubt given for the construction of school buildings by village panchayats. But our complaint is that it is not given in as liberal a measure as desirable. As a matter of fact, in more cases than one, it has been declined and the Government Order seems to have been understood by the authorities as entirely prohibiting the utilisation of village panchayats funds for this purpose As a matter of fact, even under the village panchayat Regulation, education has been made one of the optional items and as such, there is no necessity to prohibit entirely the use of the village panchayat funds. There are a number of buildings which belong to the villages and which do not belong to the local education authority and therefore they cannot be repaired by the board itself. And in such cases, they are not at all repaired; and unless the village panchayats come forward to repair such buildings at least, they will all go to ruin. Under these circumstances, it is very desirable that the village panchayats, as a rule, should be permitted to undertake the repairs of the buildings which do not belong to the local education authorities. In such cases, without any sanction from the Government, a general order may be issued allowing village panchayats up to a certain limit to repair all such buildings

The SECOND MEMBER (Mr. N. Madhava Rao). If they vest in the panchayat, it is one of the

compulsory duties of the panchayat to control other institutions or property belonging to or vested in the panchayat.

Mr. H.C. DASAPPA.-They neglect and the authorities also say they cannot utilise the funds.

Mr. N. MADHAVA RAO.- You must pull them up!

Mr. H.C. DASAPPA.-We have no hold.

Mr PRESIDENT.-If it is the property of the village panchayats, they are certainl entitled to spend some money on their maintenance. They do not know the rules.

Mr. G.CHANNAPPA.-We have no records.

Mr. PRESIDENT.-Money may be spent on buildings belonging to panchayats. What is referred to in that order is merely expenditure over new school buildings and construction.

Mr. G. CHANNAPPA.-Most of the panchayats are for building panchayat halls. I would consider that the building of schools would be more useful than building of panchayat halls. As a matter of fact, panchayat meetings themselves can easily be held in school buildings. There is no objection for combining the panchayat hall and school building.

Mr. N. MADHAVA RAO.-There are such instances also.

Mr. G. CHANNAPPA.-There are, but they must be made common.

Mr. PRESIDENT.-There is no rule against a village panchayat hall being used as a village school, if some arrangement is entered into between the village Panchayat and the education authority.

Mr. G. CHANNAPPA:-The order has been interpreted to mean that the funds should not be utilised for the repair of such buildings. So, it may be made clear.

Mr. H.C. DASAPPA.-I was about to say that the attitude of the Government in refusing to see that a portion of the village panchayat fund to be utilised towards putting up these temples of learning has somewhat baffled my understanding. If there is one thing for which the panchayat funds could be utilised very profitably and usefully for all time to come, it is by providing suitable habitation for the location of schools.

In fact, Sir, the Government do not object to the building of village panchayat halls, and having done that and seen to their construction, there seems to be no impediment inthe utilization of the panchayat halls for school purposes. Of course, we were all getting over this Government Order of denying this diversion of funds towards the construction of school building by calling the building/village panchayat hall, and then placing it at the disposal of the local education authority for the purpose of locating the school; in which case, the Government will be satisfied and our purpose also will in a way be satisfied

N. MADHAVA RAO:-
Mr. XXXXXXXX.-Certainly, Government won't be satisfied with it. It won't be a sufficient compliance with the Government Order or the provisions of the Regulation. It will be only a nominal compliance.

Mr. H.C. DASAPPA.-The Government have no objection to building the village panchaya hall

Mr.N. MADHAVA RAO.-I didn't say that.

Mr.H.C. DASAPPA.-There is no impediment whatever ~~xxxfxxxxxxxxx~~ that the Government have placed in the way of utilisation of a portion of the village panchayat funds for purposes of constructing the village panchayat hall. Now imagine the logic of it You have once a month a meeting. But a school building continues to be a school. is a matter of every day use and of substantial use to the people. But Government are opposed to it.

Mr.N. MADHAVA RAO .-At other times, there will be the reading room

Mr. H.C. DASAPPA.-The moral or logic of it will be difficult to comprehend. It is not very difficult to negative the effect of this order by saying that we want a village panchayat hall and then utilising the hall for a school building. But I think it is but right that we need not resort to such subterfuges. We ~~xx~~ may have a fair dealing and allow a portion of the funds to be utilised for such school buildings. Let it be understood that the authority for granting ~~xxxx~~ this permission will not be the local education authority at all. It will be the village panchayats, i.e., it will be the Amildar So let the discretion be vested in the Amildar or even in a higher officer--a sub-divisional officer or anybody else of that hierarchy. to decide whether a portion of the funds could be utilized for the

construction of a school building. When you have such a powerful organization behind you who could see to the non-abuse of the privileges given to the panchayats, viz., of depleting the resources of the village panchayat by any generosity towards educational institutions, you could just as well withdraw that order prohibiting the diversion of funds and leave it to the discretion of the local officers. I am sure my hon. Friend the Revenue Commissioner will see to it that there is no misapplication of the funds or abuse of this provision.

THE REVENUE COMMISSIONER (Mr.K.V. Ananataraman).-I should like to make one or two observations on this cut motion. So far as the Standing Orders of Government relating to the use of village panchayat funds for the construction and maintenance of school buildings are concerned, I may explain that there is no absolute prohibition; but having regard to the fact that it was found that the funds were being very largely diverted for this purpose and that as a result thereof, the obligatory duties cast on the panchayats were not being properly performed, it was found necessary to discourage the expenditure of village panchayat funds for educational purposes, except in very exceptional circumstances. There is nothing in the rules to prevent exceptional cases being dealt with differently from the general rule.

Mr. Dasappa referred to the fact that it was quite possible to circumvent the rule by first constructing it as a panchayat hall and afterwards devoting it for educational purposes. We are in fact wide awake to that aspect. When proposals are received for giving out the panchayat funds for educational purposes, we ask whether it is really a case of panchayat hall being constructed for panchayat purposes or obviously a panchayat hall but really meant for educational purposes. It is only when fairly extra accommodation is possible that permission is given to hold classes.

There is one more circumstance that there are certain obligatory duties cast upon the panchayats. They probably relate to sanitation, water-supply and other urgent needs of the village. And there are very few panchayats that, after adequately meeting these demands, can release funds for education purposes. But there is nothing in the rule to prevent special cases being considered and permission granted. We shall certainly consider such cases sympathetically

Mr. H.C. DASAPPA.-It is never done.

Mr. K.V. ANANTARAMAN.-I can only put one question : whether the President of the school board of Mysore has ever brought a case to the notice of the Revenue Commissioner.

Mr. B.S. PUTTASWAMY.-Amildars definitely say it is not possible. How can we go up to th Revenue Commissioner at all?

Mr. G. CHANNAPPA.-Even when there was a surplus of Rs.3,000/- the permission was refused

Mr. T. MADIAH GOWDA.-I, for one, am not in favour of making an exceptional rule. The Government have the obligatory duty of providing for primary education and district boards have been contributing their quota towards primary education and in addition, an education cess is being levied. Such being the case, to take the poor resources of the village panchayats for school buildings, etc., I do not see any reason. Besides, we are insisting upon rural reconstruction scheme being taken up as early as possible and we would require money for that purpose also. When the village panchayats have got to discharge their obligatory duties, you cannot divert their funds. Provision of school building is the obligatory duty of the local education authority, whereas the obligatory duties of panchayats consist in sanitation, water-supply and other things as pointed out by the hon. Revenue Commissioner.

My friends say that in some village panchayats, there are large surplus balances remaining unspent. I ask them whether it is spent for the obligatory duties at all of those villages panchayats — whether the village in which there is such a heavy balance is kept clean and all amenities looked into. Perhaps, they are keeping such a heavy amount not knowing what to do with it. In such cases, it is up to my friends and the Government officers to see that those funds are spent for providing the necessary amenities of those villages. Expansion of primary education is not within the province of the village panchayat. For these reasons, I am not in favour of village panchayat funds being spent for the use o school buildings.

Mr. S.C. MALLIAH (speaking in Kannada) I also agree that the panchayat funds should not be diverted for educational purposes. Members who spoke in favour of this cut motion are Presidents of the local education authorities and school boards. Because ~~xxxx the~~ school buildings are in bad repairs, they are anxious to see somehow ~~it is got done.~~ repairs are effected.

Mr. H.C. DASAPPA.- I have held the same views and expressed them so even before I became the chairman of a school board.

Mr. S.C. MALLIAH.- But one thing ~~he must~~ Desires to have forgotten ~~as also others~~ and that is, ~~if~~ by diverting village panchayat funds ~~are~~ diverted for building schools the Government would be doing a gross injustice to the panchayats. ~~Because, it can be noted that~~ In all big towns ~~and bi~~ as well as in villages, ~~all public~~ buildings have been constructed solely at government cost. ~~For many years past, lakhs and~~ Thus, so far lakhs of rupees have been spent. It is only in some cases that they have been asking for people's quota.

Why should Govt refuse all such help in the case of the New villages & insist that the full Cost of buildings shd be such only from panchayath funds?

Mr. G. CHANNAPPA.- But of late, Government have not undertaken to construct any school buildings in the villages and if ~~you don't allow~~ Govt can find funds the panchayats also are not allowed to spend, how can ~~you~~ the village have schools at all?

because they could not do so

Mr. S.C. MALLIAH.- That is a different matter. The village panchayats have several obligatory duties to perform ~~look to~~ and it would not be equitable to make them pay for educational ~~xxxx~~ purposes, when there is a separate authority entrusted with ~~it~~ such responsibility. Why should ~~you, after all,~~ the panchayats

panchayat funds on buildings, the Govt might pay in cases of hindu schoolmaster pay also should be paid on panchayat funds

~~shift~~ move over the responsibility of the Government ~~to your own shoulders?~~ at all if once you want to spend.

One of the members stated that there ~~xxx~~ in villages were buildings which did not belong to the village panchayats and that they ~~should~~ be repaired, if at all. ~~with~~ only out of the village panchayat funds. ~~But in such cases,~~ The Regulation itself ~~xxxx~~ provides for the panchayat funds being utilised for ~~it,~~ improving ~~Certain such~~ ~~since~~ the property itself should belong to the ~~panchayat~~ provided their management & control have been transferred to the panchayats.

I would also caution the non-official members against committing the panchayats to the responsibility of constructing school buildings. Because, when~~xx~~ once such a convention is established, Government might extricate themselves from their obligation altogether.

Lastly, ~~xxxxxxxx the question of~~ village improvement is ~~of~~ paramount ~~importance~~ duty of the panchayats, to which so far the panchayats ~~could~~ have not been able to devote ~~a good portion of~~ their funds in a adequate measure.

~~Sxx So long as~~ Beside the Government ~~were~~ are levying an education cess for the specific purpose of providing primary schools, it would be inexpedient to divert the village panchayat funds for constructing school buildings. I therefore oppose the ~~xxxxxxxxxxxx~~ idea of passing a general ~~xxxx~~ order for diverting the funds of the panchayats for educational purpose or for any other educational purpose. Where however panchayats have large surplus balances, ~~xxxxx~~ Government might grant permission for diverting ~~it~~ them as a special case but never ~~and not in any other case~~ as a general rule.

THE SECOND MEMBER (Mr. N. Madhava Rao).- This is not the first time that this question has come to the notice of Government. As remarked by the Revenue Commissioner and as pointed out very forcibly by Mr.S.C. Mallinh, there is no great principle involved in this. All of you will agree that the village panchayats must first be provided with sufficient funds to perform their primary and obligatory duties. It is also admitted on all hands that this is not one of the obligatory duties of the village panchayat. The only obligation on the part of the village panchayat in connection with education is the holding of a school census, i.e., preparing a list of children of school-going age in compulsory areas where compulsory education has been introduced under the Regulation.

~~With regard to primary duties~~, there are not in many cases sufficient funds to enable the village panchayats even to perform their primary duties. There seems to be an impression that some of them have accumulated large balances and that the most proper way of utilising them is to go to the rescue of the local education authority by relieving ~~them~~ it of ~~their~~ its duty of finding the necessary school building. I may, however, point out that the total number of panchayats which have got balances exceeding Rs.1,000/- is ~~rather~~ very limited; the number varies from about 25 in the Kadur District to about 116 in the

Mysore

Mysore District. The total number of panchayats with the resources up to the limit mentioned was 470 at the end of 1934-35. ~~It~~ This shows ~~therefore~~ that the impression that large balances have accumulated, which could be raided for other purposes, is not well-founded.

There is also a danger in allowing village panchayat funds to be diverted for purposes which, however, commendable, are not within the purview of the village panchayat scheme---when there is a call made upon these funds by almost every development department and by every public welfare agency. Even with regard to medical relief, in some districts calls have been made upon the funds of the village panchayat in order to bring into existence dispensaries which should have been financed primarily by the district boards or by the municipalities concerned.

Mr. H.B. GUNDAPPA.-And not by the Government?

Mr. N. MADHAVA RAO.-Government, of course, meets in every case one-half the pay of the Sub Assistant Surgeon, for instance The question is not that educational buildings are to ~~xxxxx~~ be discouraged; on the other hand, we want to see that as many of them spring up as possible; only let there be some ~~some~~ convention about the source from which the cost is to be met; otherwise, we shall be mixing up these various sources of finance and causing confusion.

Mr. N. MADHAVA RAO.-If the village panchayat does not want the hall for other purposes, and comes to an agreement with the local education authority, there won't be any difficulty or objection raised to it. These cases will be considered on their merits and treated as special cases. The Government Order now in force is sufficiently elastic and provides for ~~various cases~~ varying circumstances.

Mr. K. CHENGALARAYA REDDY.-Will the Government issue a circular that panchayat halls may be used for school purposes?

Mr. PRESIDENT.-If necessary, we shall consider the question.

Mr. J. MAHOMED IMAM.-I never meant this to be ~~xxxxxx~~ concession to be applied universally. I only said where adequate funds are available.

Mr. PRESIDENT.-That is provided for in the rules.

Mr. H.B. GUNDAPPA.-As explained by the Second Member, permission has become very necessary.

Mr. PRESIDENT.-We shall consider it.

Mr. J. MAHOMED IMAM.-Local education authorities are helpless, the village panchayats are prohibited and Government give no money and there are absolutely no chanc of ~~xxxxxxx~~ schools. Secondly, as pointed out by Mr. Dasappa, if free permission is given for the use of village panchayat ha they will be more useful for school purpo

They are now being used only as travellers' bungalows by officers that go to the villages.

Mr. PRESIDENT.-We will note that the village panchayat halls are not serving a much useful purpose.

Mr. J. MAHOMED IMAM.-The objections raised by my friends Messrs. Madiah Gowda and S.G. Mallian are based on technical grounds If their conditions are adopted, there will be no chance of the educational benefit being reaped by the villagers.

My submission is that the village panchayat funds are to be spent in such a way as to result in the greatest good to the largest number of people. It will be a permanent asset and improvement if you allow them to be used in part for educational purposes. That is my object in moving this cut motion

I withdraw the cut motion with those remarks

The cut motion was withdrawn.

Letter No.L.6404/V.P.43-33-4 dated 20/21st March 1935, from to the Director of Public Instruction in Mysore, stating that the development of Education is a discretionary duty of the Village Panchayets and as there are many other demands on the funds of the Village Panchayets for purposes connected with their primary and obligatory duties, it is not advisible to divert these funds for educational purposes save in very exceptional cases.

2. Remarks Discussions in the meeting of the Legislative Council Sessions of June 1936, on cut-motio No.) moved by Mr.J.Mahomed Imam urging the necessity for permitting the utilisation of a portion of the Village Panchayet funds for the construction of school buildings etc.

ORDER NO. L 33 23-42/V.P.28-37-1

Dated.Bangalore, the 30th October 1936.

Under Section 21 (VII) of the Mysore Village Panchayet Regulation, 1926, development of Education is a discretionary duty of the Village Panchayets. As in most cases the funds at the credit of the Village Panchayets do not admit of the performance of even their primary and obligatory duties Government consider that it is not desirable to ~~direct~~ these funds for constructing school buildings. In very exceptional cases, however, where there is need for a school building and the village panchayet has enough funds to spare for the purpose, after providing for sanitation and other primary needs, which are first charge on its finances, utilisation of the funds of the Village Panchayets for construction of school buildings may be allowed with the special sanction of Government obtained therefor.

During the discussion at the Legislative Council meeting (June 1936), it was also urged that the Village Panchayet halls may be allowed to be placed at the disposal of the Local Education Authorities for holding schools without prejudicing the work of the Panchayets. In cases in which the Village Panchayet does not want the hall for other purposes and comes to an agreement with the Local Education Authority in this behalf, Government will have no objection to permit the halls being used for holding the school. The sanction of the Deputy Commissioner may be obtained in each case.
